

11th of March 2014

**Declaration of Conformity with
CISPR25 Electromagnetic Compatibility Standard
(C-Tick Approval number #N28214)**

CouplerTec Electronic Rustproofing hereby states that CouplerTec electronic rust-proofing systems have been quality control tested and **approved to strict ISO 9001 standards**. They have successfully passed independent testing carried out by Bosch. In addition, they **have completed CISPR25 Electromagnetic Compatibility Standard** classification testing which has shown that **they do not interfere with any on-board electronic and radio devices or computers** (engine control units, braking system...). All CouplerTec systems have achieved Certification of Quality and they bear the C-Tick Approval number #N28214.

Yours faithfully,

Garry Bell
Managing Director
